Tow Multiple Carts

Assembly Line

Tote Handling

Floor Lift

The Total AGV System Solution:

- **iQ-CAN PC Program...** Pre-packaged software for system configuration, simulation and control without writing operational software.
- **Tape/Target-Free AGV 'Virtual Path' Navigation** features zero path maintenance and can be deployed in days and changed on the fly.
- **The Same, Universal-Use, Common Chassis Automatic Guided Vehicle** supports a broad range of application needs including reconfiguration for true, company-wide AGV standardization as needed.
